Page 1. God saw how corrupt the earth had become, So God said to Noah, “I am going to put an end to all people, for the earth is filled with violence. So make yourself an ark of gopher wood; I will establish my covenant with you, You are to bring into the Ark two of all living creatures, male and female.”

"God saw that the world had gone wrong, so God told Noah, 'I'm going to flood the earth because there is too much fighting and hurting. Build an Ark out of wood.. I will make a promise with you. You need to bring two of every kind of animal, one boy and one girl, into the Ark.'"

The animals marched by the hundreds for miles. Two by two, one male and female, gathered in the ark to escape the flood. Until, two lions were stopped from boarding by Noah.
The 2 male lions looked to Noah asked “Why can we not Board? We have marched beside each other our entire life and could never see ourselves being without each other.
Noah responded, Gods instructions are clear. 2 sets of every animal, male and female. We cannot have any same sex couples on our Ark. Begone.

2 male giraffes approached the boat and asked to be let on board. The giraffes begged. Please Noah, allow us on the Ark! We do not wish to drown in this terrible flood. Noah stopped the giraffes in their path and declared “The rule of god is clear. 2 animals of evey kind, male and female. We cannot have 2 male giraffes.

3 penguins attempt to board the ark and noah stops them. The 3 penguins protest saying the love the share between the 3 of them is as true for noah and his wife. Noah declares that it must be 2 of every kind, male and female.

4 a single Panda approaches the ark and requests to board. Noah denies the Panda, reminding him that again, it must be 2 of every kind, a male and female, not a single.

5. A black panther and spotted leopard apprach the ark and request to board. Noah denies them also, reiterating, 2 of every kind. A Black panther and spotted leopard are two different kinds. God cannot allow the kinds to mix. Even if you were just 2 black panthers, they already have 2 non-black panthers on board.

6. 2 goats approached the ark as begged Noah, “please Noah, the lions, the giraffes, the penguins, the panda, and the leopard and panther. If you refuse to help, we will refuse to board your ark. They deserve protection like everyone else. I cannot do this, the lords words are clear. 2 animals of each kind, male and female. No more.

7. the waters rose and increased greatly on the earth, and the ark floated on the surface of the water. The remaining animals sit ontop a hill as the water slowly rises. The gather togethor. But then a bright light began to shine for them.

9. A rainbow bridge opens up, guiding all the animals to a city for pride and acceptance.

10. After 40 days and 40 nights, Noah found land and saved a covenant for god. As the clouds parted, in the far distance on the horizon, bowed an arch of color and light.

Trans Lions

It has been recorded on at least 5 occasions that Lionesses will sometimes grow manes and take on the roles of Male Lions. It would be a projection of human constructs to call them a trans-man lion, but then again, calling any wild animal a man or woman is also human projection.

Gay Giraffes
Giraffes are known for taking part in homosexual behaviors more often than other mammals. So often that Dawn Butler, Member of UK Parliment once claimed that 90% of Giraffes are Gay. That exact percentage is reported to be an exaggeration by wildlife experts, but that isn't to say Giraffes are not still frequently homosexual.

Odd Animal Freindships
It has been recorded on more than one occasion where animals of separate species will become friends and bond.

Personification and Projection. Sexual and Gender identity is a human construct, and conclusively, any defining of animals as trans or gay is also a projection of our own sense of identities. Animals do not go around informing others of their pronouns, they don't wear pride flags, and they don't police others' love life. They simply exist and follow their instincts and primal drives. In a way, this makes wildlife more admirable than us. They live and let love.
